

<h3>Metallic No.40</h3> <p> Dank einer speziell entwickelten Zwirnkonstruktion wurde aus einem starken zugleich auch ein weiches Garn. Diese für Metalleffektgarne ungewöhnliche Kombination garantiert auf allen Stickmaschinen einen erfreulich reibunglosen Ablauf.</p> <p> Specifically developed twist construction has produced a strong thread with a soft, pliable character. This exclusive combination allows MADEIRA Metallic Threads to run smoothly on high speed machines.</p> <p> Grâce à un retors spécialement étudié, on est passé d'un fil résistant à un fil également doux et souple. Cette combinaison, plutôt exceptionnelle pour un fil métallisé, assure une utilisation sans problème sur toutes les machines.</p>		<p>70% Polyamid 30% metallis. <h3>Metallic No.40</h3> <p> Grazie alla struttura del filo ritorto sviluppata appositamente, oltre ad essere forte il filato è diventato anche morbido. Questa combinazione inconsueta per filati metallizzati garantisce un lavoro senza intoppi su tutte le macchine da ricamo.</p> <p> Dank zij een speciaal ontwikkelde twijning ontstond er een sterk en tegelijkertijd zacht garen. Deze voor gemaaliseerde effectgarnens ongewone combinatie garandeert bij alle borduurmachines het zonder wrijving aflopen van de draad.</p> <p> Благодаря особому крученю эти нитки не только прочные, но и мягкие. Такая необычная для металлических ниток комбинация гарантирует хорошую проходимость на всех вышивальных машинах.</p>		<p>60% Viscose 40% metallis.
